

II. REMARKS

In the Communication issued July 9, 2004, the Office noted that the amendments to the specification did not overcome the objections because Applicants' prior response still contained active hyperlinks. The Office suggested appropriate language and gave Applicants one month (with extensions of time under 37 C.F.R. § 1.136(a) or (b)) to correct the specification.

This paper is submitted in response to the July 9 Communication and the amendments to the specification noted above have been made in a sincere effort to remove the remaining grounds of objection. An issue of new matter is not raised by these amendments and entry thereof is respectfully requested.

In view of the preceding amendments and the remarks that follow, reconsideration and withdrawal of the objections to and rejections of the claims is respectfully requested.

III. CONCLUSION

No fee, other than the fee for a One Month Extension of Time is deemed necessary in connection with this Reply. In the unlikely event that the transmittal letter is separated from this document and/or the Patent Office determines that an extension and/or other relief is required, Applicants petition for any required relief including extensions of time and authorize the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 50-2518**, billing
